

Grade 4 Curriculum Revised

Approved by the Board of Trustees - 9/13/2017

## **Mission Statement**

Pace Charter School of Hamilton, Department of Visual and Performing Arts is committed to increasing opportunities for all students K-6 to participate in and understand the arts.

We all share the common belief that the arts are one of humanity's most eloquent means of understanding the world. Through the arts, we share the highest achievements of every culture and find a universal language which permits communication among all peoples. As such, the arts are an essential component of a complete education.

Through the years, studies have discovered that the inclusion of the performing arts in a broad-based curriculum improves the quality of a child's educational experience. The arts teach discipline, improve self-esteem, inspire creativity, and help young people to set and reach goals. Knowledge of the arts makes our district a challenging place where our children are encouraged to explore, to create, and to reach their full potential.

## **Vision Statement**

The arts are a critical and essential part of the education of every young person in America, and every American should have high-quality opportunities to be educated in all of the arts. Such an education should occur both in and out of classroom settings as part of an ongoing learning process for all individuals, including those with special talents or needs.

A comprehensive arts education draws upon the expertise of both arts specialists and classroom teachers, and upon the experiences and resources of professional artists and community cultural resources. Only by utilizing all of these resources can individuals achieve the full educational potential of the arts.

## **Course Description**

This Elementary Art Education Curriculum Guide provides a description of information, objectives, procedures and materials. The guide is organized by grade levels kindergarten through sixth. All students will progress toward the

basic literacy of the elements of art and principles of design. Students will learn how to effectively use art media and materials, and experience techniques that are associated with each. Interdisciplinary connections are stated where applicable.

Areas of content include the Elements of art: Line, Shape, Form, Value, Color, Space, and Texture, and the Principles of Design: Balance, Harmony, Unity, Emphasis, Proportion, and Rhythm/Movement.

Differentiated learning generates the format to include appropriate educational links to all aspects of study at the elementary grade level. Art history and cultural connections, as well as work readiness skills, are documented in written plans. New Jersey Core Curriculum Standards are included, noted and up to date. Accommodations and modifications are made for special needs.

Students have exposure to famous works of art and themes throughout historical periods and world cultures. In addition to the suggested activities in this guide, teachers may choose to enforce artistic skills through the inclusion of special poster contests, exhibits or displays, and/or holiday projects.

Technology may be used for audio-visual education and/or research. Lessons may be enhanced with the use of computers, video cameras, CD/DVD programs, audio and video technology.

Unit 1: Art Production	
<b>Content Area: Visual and Performing Arts</b>	
<b>Course &amp; Grade Level: Art, Grade 4</b>	
Summary and Rationale	
<p>In order to understand the artistic process, students are introduced to: generating ideas and invention, developing ideas and selection, using media and techniques of production, personal fulfillment and expression, and judging performance and evaluation.</p> <p>To produce works of art, students are introduced to: sources of ideas from the world around them; from inner feelings; from human needs; from fantasies; from experimentation; and from formal systems of order, changing and alternating habits of work, making appropriate choices, use and care of tools and material, considering functional ends and purposes, and applying standards of judgment.</p> <p>So that students can find pleasure and fulfillment in the artistic process, they are encouraged to: hold positive attitudes toward art and artists, be open-minded toward artistic experimentation, empathize with artists and the process of their work, participate in activities related to art, and value art as an important realm of human production.</p>	
Recommended Pacing	
10 Days	
State Standards	
<b>Visual and Performing Arts Standard 1.1 The Creative Process:</b> All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art.	
CPI #	Cumulative Progress Indicator (CPI)
1.1.5.D.1	Identify elements of art and principles of design that are evident in everyday life.
1.1.5.D.2	Compare and contrast works of art in various mediums that use the same art elements and principles of design.
<b>Standard 1.2 History of the Arts and Culture:</b> All students will understand the role, development, and influence of the arts throughout history and across cultures.	
CPI #	Cumulative Progress Indicator (CPI)
1.2.5.A.1	Recognize works of dance, music, theatre, and visual art as a reflection of societal values and beliefs.
<b>Standard 1.3 Performance:</b> All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art.	
1.3.5.D.1	Work individually and collaboratively to create two- and three-dimensional works of art that make cohesive visual statements and that employ the elements of art and principles of design.
1.3.5.D.2	Identify common and distinctive characteristics of artworks from diverse cultural and historical eras of visual art using age-appropriate stylistic terminology (e.g., cubist, surreal, optic, impressionistic), and experiment with various compositional approaches influenced by these styles.
1.3.5.D.3	Identify common and distinctive characteristics of genres of visual artworks (e.g., realism, surrealism, abstract/nonobjective art, conceptual art, and others) using age-appropriate terminology, and experiment with various compositional approaches influenced by these genres.
1.3.5.D.4	Differentiate drawing, painting, ceramics, sculpture, printmaking, textiles, and computer imaging by

	the physical properties of the resulting artworks, and experiment with various art media and art mediums to create original works of art.
<b>Standard 1.4 Aesthetic Responses &amp; Critique Methodologies:</b> All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.	
1.4.5.B.1	Assess the application of the elements of art and principles of design in dance, music, theatre, and visual artworks using observable, objective criteria.
1.4.5.B.2	Use evaluative tools, such as rubrics, for self-assessment and to appraise the objectivity of critiques by peers.
<b>Instructional Focus</b>	
<b>Unit Enduring Understandings</b>	
<ul style="list-style-type: none"> <li>Artists get ideas from the world around them.</li> <li>One way to get ideas for making art is to think about people, places, and things that have special meaning to you.</li> <li>Artists get ideas from manipulating and exploring different combinations of lines, shapes, colors, etc.</li> <li>Art encourages an awareness and appreciation of beauty and design.</li> <li>Art elicits personal meaning and emotional responses.</li> <li>Elements are the building blocks for the creation of art.</li> <li>The principles of art are the inspired arrangement of the elements.</li> <li>The manipulation of elements and principles allows the artist to create meaning.</li> <li>The elements and principles of design are everywhere.</li> <li>Art has the power to extend an individual's sense of history, personal frame of reference and the world around them.</li> </ul>	
<b>Unit Essential Questions</b>	
<ul style="list-style-type: none"> <li>How do artists express their ideas?</li> <li>Should artists always know what their work will look like in the end?</li> <li>Is skill necessary to make successful artwork?</li> <li>How do the elements guide the creation of art?</li> <li>How do the principles guide the creation of art?</li> <li>How do the elements and principles of design help communicate ideas?</li> <li>How does knowing the elements and principles of design impact our visual experience?</li> <li>What can art tell us about ourselves and our surroundings?</li> </ul>	
<b>Objectives</b>	
<p><b>Students will know:</b></p> <ul style="list-style-type: none"> <li>One way to get ideas for making art is to think about how the product you are going to make will be used.</li> <li>One thing to consider in making art is how certain qualities and combinations of lines, shapes, colors, etc. can express moods and feelings</li> <li>One thing to consider, when expressing an idea is how to create a center of interest.</li> <li>One thing to consider, when expressing an idea is how different areas might feel to the touch.</li> <li>One thing to consider, when making art is how to utilize special techniques.</li> <li>Primary and secondary colors; warm, cool, and analogous colors</li> <li>Appropriate terms for art concepts.</li> </ul> <p><b>Students will be able to:</b></p> <ul style="list-style-type: none"> <li>Show depth by overlapping and altering size and position of objects in two-dimensional space</li> <li>Manipulate materials to create three-dimensional forms</li> <li>Use real and imaginary objects as sources for ideas</li> <li>Use lines, shapes and colors to express moods, feelings, and emotions</li> </ul>	

- Use contrast to achieve a desired effect
- Use symbols to express feelings and ideas
- Control appropriate media to achieve desired effects for special purposes
- Mix colors using warm, cool, neutral, or analogous colors
- Use simple organizational schemes and devices when expressing ideas
- Demonstrate a sense of design and balance in their work
- Use various art tools in their proper manner
- Develop perceptual and drawing skills by focusing on shape and line
- To express ideas and feelings by changing shape, size, direction, color, etc.
- To increase their ability to enrich surfaces with decoration on painting, drawings, craft, and sculpture
- To consider the entire paper when planning a composition

## Resources

### Core Text:

### Suggested Resources:

- Emotion in Art: Abstract; color, line and shape
- Drawing which reflects art movements, (i.e.; Surrealism, Abstract Expressionism, etc.)
- Three-dimensional shapes: animal sculptures, coil pots, fantasy, etc.
- Enlarged images
- Fantasy landscapes and creatures

Unit 2: Art History	
<b>Content Area: Visual and Performing Arts</b>	
<b>Course &amp; Grade Level: Art, Grade 4</b>	
Summary and Rationale	
<p>In order to understand the history of art, students are introduced to art works from the six continents of the world: Asia, Africa, Central and South America, Oceania, North America and Europe. Also, students are presented with a simplified chronological history of western art, focusing on the following periods and styles: Egypt, Greece and Rome, The Middle Ages, The Renaissance and Baroque, Nineteenth Century Europe and America, and Late Nineteenth Century and Twentieth Century. In order to engage in art historical inquiry, students are introduced to five skills of art historical inquiry: imagine restoration, description, attribution, historical interpretation and historical explanation of change.</p>

<b>Objectives</b>	
<p><b>Students will know:</b></p> <ul style="list-style-type: none"> <li>The appearance of art works is affected by where and when they were produced</li> <li>Art historians describe works of art in specific detail and that description takes into account size, location, visual qualities and any other significant features that serve to identify a work of art</li> <li>A defining attribute of cultures is that they all make art.</li> <li>Art works have been produced for thousands of years and have been produced all over the world</li> <li>How cultures use symbols in their art</li> <li>One thing to consider when making art is how to use the materials and take care of the tools</li> <li>One way to change ideas when making art is to try different ways of combining and repeating lines, shapes, and colors</li> <li>Articulate basic art terms</li> </ul> <p><b>Students will be able to:</b></p> <p><b>Students will be able to:</b></p> <ul style="list-style-type: none"> <li>Describe visual artifacts or artworks from the past</li> </ul>	

- Produce an art work using the style of a particular artist or period
- Identify the source and describe the significance of an idea for one of their own art works
- Use appropriate media for specific purposes
- Repeat lines, shapes and colors to create a pattern
- Discover color mixing
- Value the art historical process as a way of coming to know another time and place
- Appreciate art as a way of understanding the point of view of persons of other cultures or other times
- Appreciate historical preservations as efforts to maintain a community's visual heritage
- Value one's own capacities to make sense of one's own artistic development (both as artists and as perceivers)
- Value art as an important realm of human accomplishments which can inform us about how we have come to be who we are

Unit 3: Art Criticism	
<b>Content Area: Visual and Performing Arts</b>	
<b>Course &amp; Grade Level: Art, Grade 4</b>	
Summary and Rationale	
Students will understand the visual aspects of art, engage in the process of art criticism, and appreciate the value of discussing art. Supplementary goals will include: communication skills, critical and analytical thinking, self-esteem, and understanding and respecting others in the art process. In order to understand art, students are given the opportunity to talk about: sensory, expressive, formal, and technical qualities.	
Recommended Pacing

1.3.5.D.4	Differentiate drawing, painting, ceramics, sculpture, printmaking, textiles, and computer imaging by the physical properties of the resulting artworks, and experiment with various art media and art mediums to create original works of art.
1.3.5.D.5	Collaborate in the creation of works of art using multiple art media and art mediums, and present the completed works in exhibition areas inside and outside the classroom.
<b>Standard 1.4 Aesthetic Responses &amp; Critique Methodologies:</b> All students will demonstrate and apply an	

understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.	
1.4.5.B.1	Assess the application of the elements of art and principles of design in dance, music, theatre, and visual artworks using observable, objective criteria.
1.4.5.B.2	Use evaluative tools, such as rubrics, for self-assessment and to appraise the objectivity of critiques by peers.
1.4.5.B.3	Use discipline-specific arts terminology to evaluate the strengths and weaknesses of works of dance, music, theatre, and visual art.
1.4.5.B.4	Define technical proficiency, using the elements of the arts and principles of design.
1.4.5.B.5	Distinguish ways in which individuals may disagree about the relative merits and effectiveness of artistic choices in the creation and performance of works of dance, music, theatre, and visual art.
<b>Instructional Focus</b>	
<b>Unit Enduring Understandings</b>	
<ul style="list-style-type: none"> <li>• The critical process of observing, describing, analyzing, interpreting and evaluating leads to informed judgments regarding the relative merits of artworks.</li> <li>• The critique process establishes a relationship between viewer and artist.</li> <li>• Art has its own accepted vocabulary that provides a means to discuss, analyze, and evaluate art.</li> <li>• Understanding art is an informed and critical process. The artistic process is not complete when the process is finished, and that there are also processes involved in looking at art</li> <li>• Elements are the building blocks for the creation of art.</li> <li>• The principles of art are the inspired arrangement of the elements.</li> <li>• The manipulation of elements and principles allows the artist to create meaning.</li> <li>• The elements and principles of design are everywhere.</li> </ul>	
<b>Unit Essential Questions</b>	
<ul style="list-style-type: none"> <li>• Why critique art?</li> <li>• Can art really be evaluated?</li> <li>• Is art objective or subjective?</li> <li>• Can it be both objective and subjective?</li> <li>• Which is more important, the artist's intention or the viewer's response?</li> <li>• Whose view is more important?</li> <li>• Why is specific vocabulary necessary in order to successfully evaluate art?</li> <li>• What does a viewer need to know in order to understand an artwork?</li> <li>• Do some viewpoints have more merit than others? Why?</li> </ul>	
<b>Objectives</b>	
<b>Students will know:</b> <ul style="list-style-type: none"> <li>• One way to look at art is to focus on sensory elements including mass and space</li> <li>• One way to look at art is to focus on formal structure including contrast and value</li> <li>• Critics explain works of art so we can understand them better</li> <li>• How people view artwork is based on their own life experiences</li> <li>• One way to look at art is to focus on sensory elements including tactility (physical texture)</li> <li>• How to build on previous learning of formal structure</li> <li>• Response to art can be both objective and subjective</li> </ul> <b>Students will be able to:</b> <ul style="list-style-type: none"> <li>• Analyze why they personally like certain artwork</li> <li>• Describe the sensory elements of mass and space in a work of art</li> <li>• Analyze the way the elements are contrasted in a work of art</li> <li>• How to describe sensory elements including tactility</li> </ul>	

- How to make an objective statement about a work of art
- How to make a subjective statement about a work of art
- Describe line, shape, and color in art works
- Analyze how lines, shapes, and colors are repeated in a work of art
- Speculate about how an art work was made
- Describe the subject matter in works of art
- Appreciate art as a way of understanding the point of view of persons of other cultures or other times
- Observe the basic arts elements in performances and exhibitions and use them to formulate objective assessments of artworks.
- Apply the principles of positive critique in giving and receiving responses to performances.
- Recognize the making subject or theme in visual art.

Unit 4: Philosophy of Art	
<b>Content Area: Visual and Performing Arts</b>	
<b>Course &amp; Grade Level: Art, Grade 4</b>	
Summary and Rationale	
<p>In order to understand the philosophy of art, students are introduced to some of the things that concern philosophers of art: diverse questions about the nature and significance of art, aesthetic experience, and art criticism; appropriate use of words and statements to think and talk about these questions; appropriate use of definitions; reasons to support what they say; and theories of art, aesthetic experience and art criticism. In order to engage in aesthetic inquiry, students are introduced to skills in philosophical reasoning: listening carefully to others' points of views; making general statements; selecting and evaluating use of words; presenting and evaluating use of statements; presenting and evaluating use of definitions; presenting and evaluating reason in support of positions; and recognizing philosophical issues. In coming to appreciate the value of aesthetic inquiry, students are encouraged to: inquire into the nature and significance of art and into the presuppositions of art history and art criticism; appreciate the enterprise of giving and assessing reasons; realize that there are alternative answers to questions that give rise to inquiry into the nature and significance of art and into the presuppositions of art history and art criticism; and respect alternative answers so long as they are backed by reason.</p>
